Correction: Therapeutic potential of omega-3 fatty acids supplementation in a mouse model of dry macular degeneration

There is an error in the Results paragraph of the Abstract. The sentence:

‘The outer nuclear layer thickness was increased in groups C (45.0±3.9 μm) and D (62.8±4.9 μm) compared with groups B (65.6±3.0 μm) and A (71.1±4.2 μm), and in young mice, it was 98.0±3.9 mm.’

Should have read,

‘The outer nuclear layer thickness was increased in groups C (90.0±7.8 μm) and D (125.6±9.8 μm) compared with groups B (65.6±3.0 μm) and A (71.1±4.2 μm), and in young mice, it was 98.0±3.9 μm.’
